

GJV PAVAN SAI

QA Engineer | Manual Tester | Software Test Engineer Trainee

Hyderabad, India | +91 9502589529 | pavansai20052004@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

QA-focused Software Engineer with B.Tech in Data Science and hands-on practice in manual testing, test case design, bug reporting, RTM, test summary reporting, SDLC/STLC, Agile/Scrum, and JIRA basics. Strong development background in Java, Python, JavaScript, SQL, REST APIs, and MERN applications, enabling effective UI, functional, API, and database-oriented testing for web applications.

TECHNICAL SKILLS

Testing Skills: Manual Testing, Functional Testing, Smoke, Sanity, Regression, Retesting, Integration, System, UAT, Exploratory, Ad-hoc, Positive/Negative Testing, Boundary Value Analysis, Equivalence Partitioning

QA Documentation: Test Scenarios, Test Cases, Bug Reports, Severity/Priority, Bug Life Cycle, RTM, Test Plan, Test Data, Test Summary Report

Tools & Platforms: JIRA Basics, Excel, Postman, Git, GitHub, Chrome DevTools, VS Code

Programming & Databases: Java, Python, JavaScript, SQL, MySQL, MongoDB, PostgreSQL, SQLite

Web/API Concepts: REST APIs, JSON, HTML5, CSS3, React.js, Node.js, Express.js, JWT, RBAC, SDLC, STLC, Agile/Scrum

QA PROJECTS

Swag Labs E-commerce Application Testing | *Manual Testing, Excel, JIRA Basics, Chrome, Windows 11*

- Performed manual testing on Login, Products, Cart, Checkout, and Logout modules of a demo e-commerce application.
- Designed 20+ test cases covering positive, negative, functional, exploratory, regression, BVA, and equivalence partitioning scenarios.
- Prepared QA artifacts including test case execution sheet, bug reports, RTM, and test summary report for portfolio evidence.
- Reported UI state defect where the Remove button remained visible after Reset App State cleared the cart count.

RentEase Rental Management Platform Testing | *Functional Testing, UI Testing, API Testing, Postman, MongoDB*

- Tested authentication, product listing, rental cart, rental order, and role-based dashboard workflows from a QA perspective.
- Created functional and negative test scenarios for login, product search/filter, cart flow, and rental order modules.
- Validated REST API behavior, request/response data, status codes, and access control scenarios using Postman and application flows.
- Checked JWT authentication and RBAC behavior to ensure users could access only authorized pages and actions.

HunarHub Skill Marketplace Testing | *Manual Testing, Role-Based Testing, API Testing, Bug Reporting*

- Tested admin, entrepreneur, and customer workflows including login, service listing, approval, and request management.
- Designed role-based test cases for valid login, invalid login, unauthorized access, CRUD operations, and error handling.
- Verified expected vs actual results for REST API-driven workflows and documented defects with severity and priority.

PROFESSIONAL EXPERIENCE

Full Stack Web Development Intern - Unified Mentor, Hyderabad

Jan 2026 - Apr 2026

- Developed 15+ REST APIs for MERN-stack applications using Node.js, Express.js, and MongoDB with JWT authentication, RBAC, and input validation.
- Gained QA-relevant exposure to API behavior, user flows, validation rules, and role-based access scenarios while building full-stack features.

DevOps Intern - Skilified Mentor, Hyderabad

Mar 2026 - Apr 2026

- Automated Java compile, test, and packaging workflows using Apache Maven, Git, and CI/CD pipelines, improving build reliability.

Data Science and Analytics Intern - Zidio Development, Hyderabad

May 2026 - Present

- Built Python-based data processing workflows using Pandas and NumPy for data cleaning, transformation, and validation.

EDUCATION

B.Tech in Data Science - Holy Mary Institute of Technology & Science | 2022 - 2026 | CGPA: 7.84/10

CERTIFICATIONS

Full-Stack Web Development - Unified Mentor | Generative AI - Infosys Springboard | Programming and Problem Solving - IBM SkillsBuild
